DISTRIBUTION

The company

Poly Pool S.p.A. is a leading manufacturer and distributor of electrical material for the Large-Scale Retail sector, serving both the Italian and International markets.

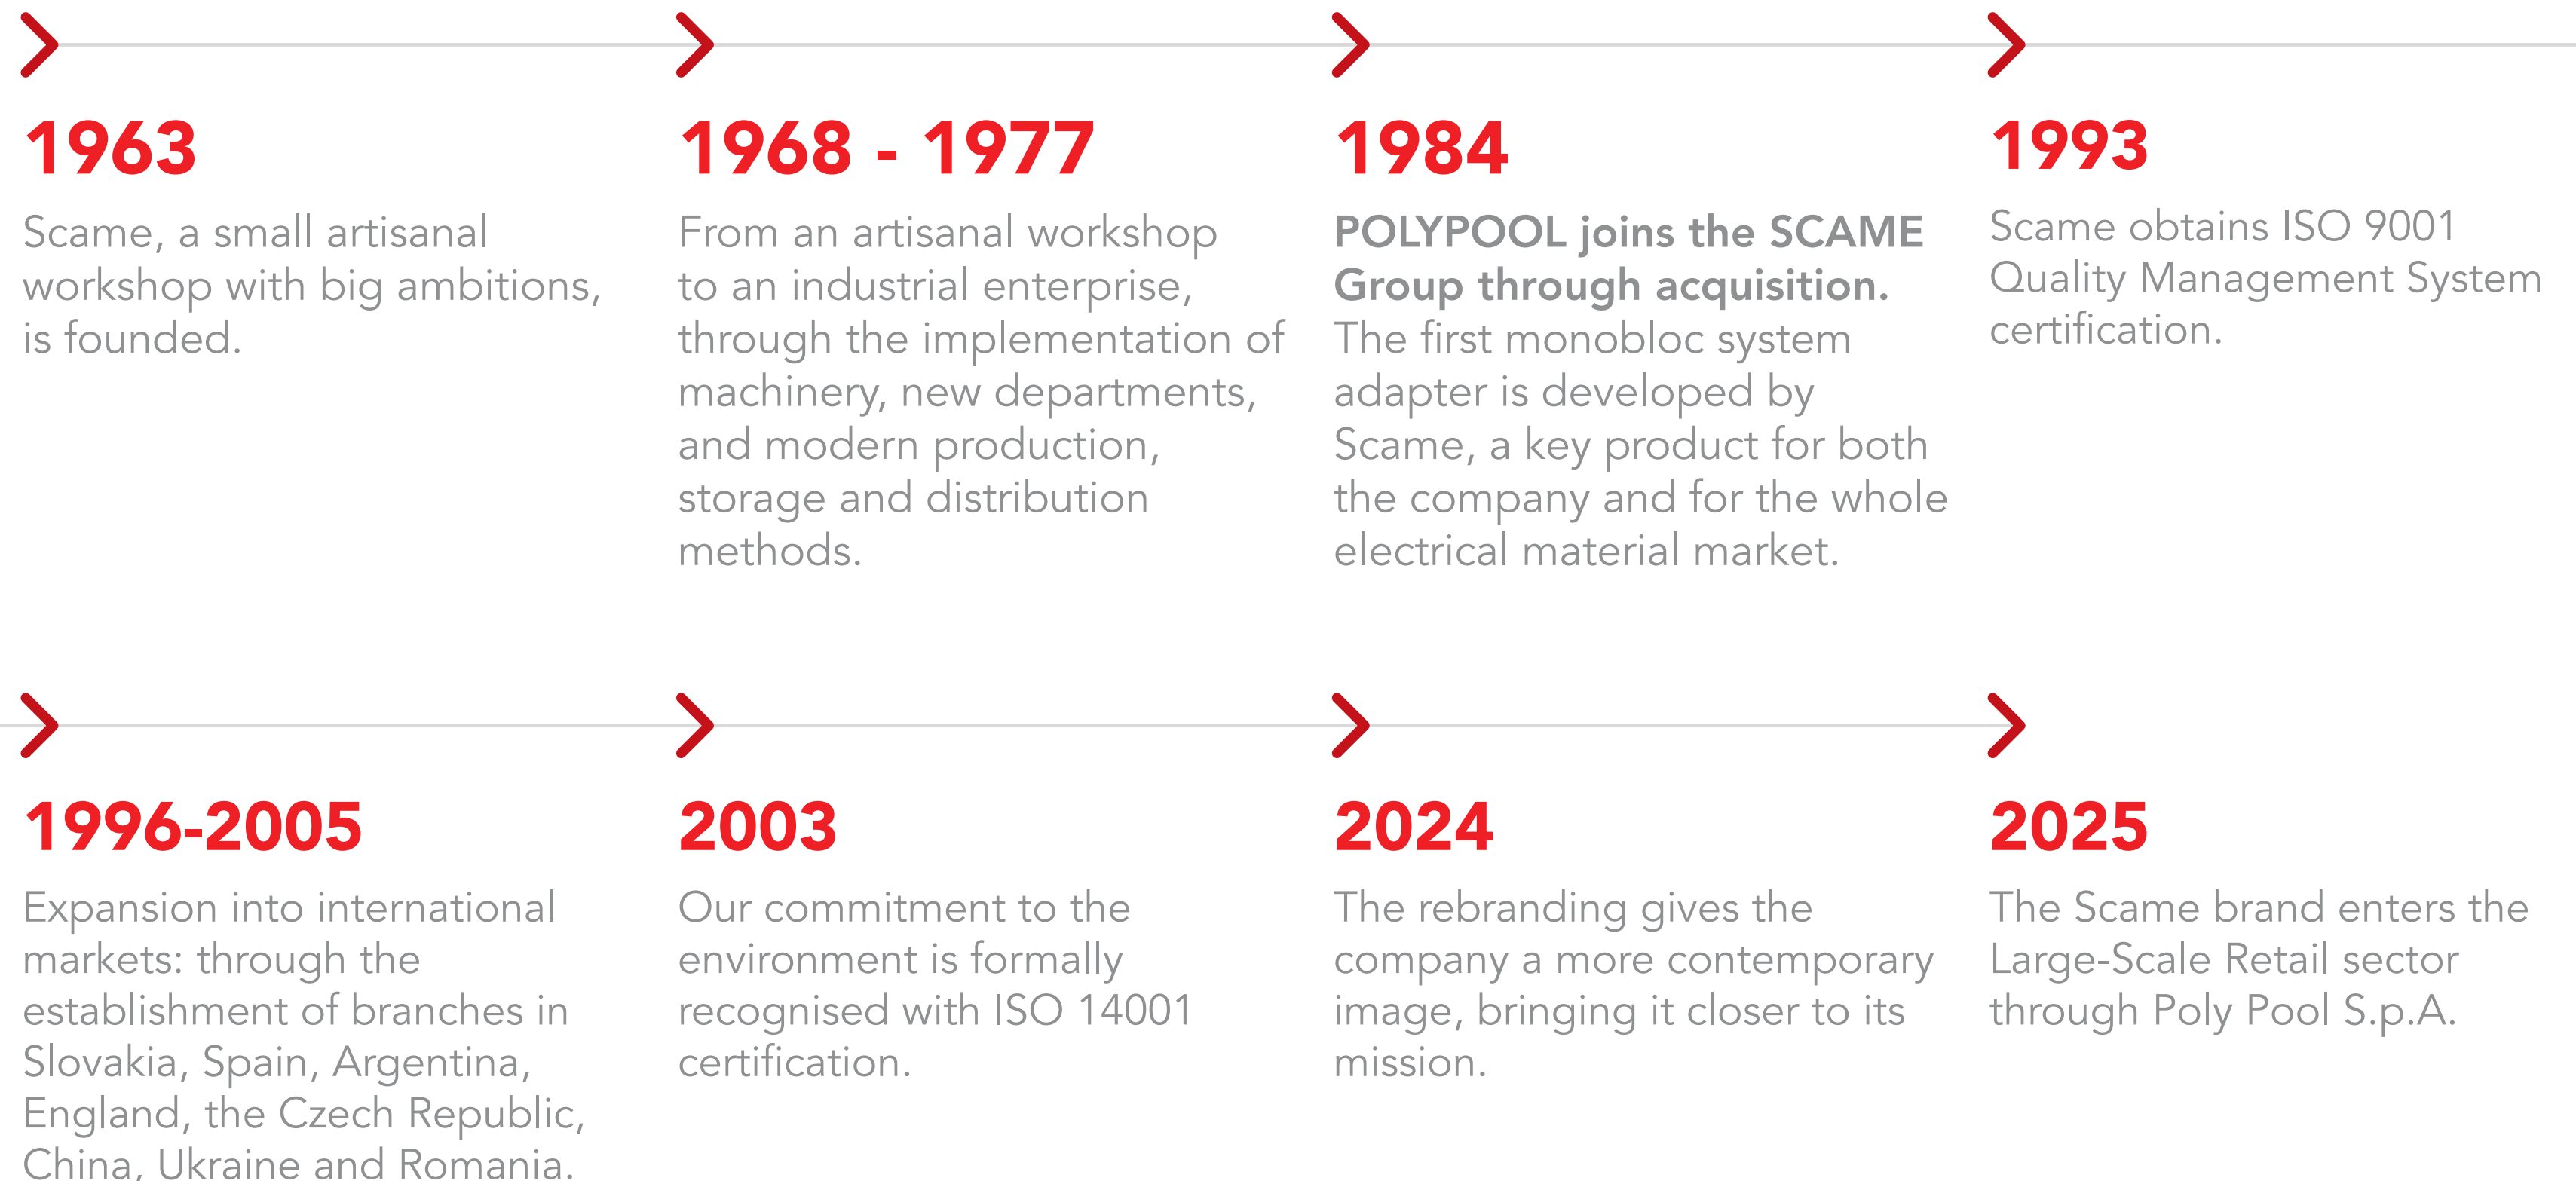

The company has been a partner of absolute reliability for over 40 years throughout the procurement process, from design to production, from the selection of the best suppliers worldwide to the accurate quality control of individual products in line with the highest international standards.

The commercial network in Italy and Europe and the internal logistics structure, with 20,000 square metres of warehouses and production units, allow the company to satisfy the service requests of national and international distribution, guaranteeing daily deliveries throughout the territory, even at individual points of sale.

The Group

Poly Pool S.p.A. is part of the Scame Parre S.p.A. industrial group, an Italian multinational manufacturer of electrical material for residential, commercial and industrial applications, as well as e-mobility charging systems.

Distribution

The company supplies shops and all major **large-scale retail** chains - including food, DIY, electronics, hardware and homeware - with a range of more than 4,000 items.

The ability to offer a **wide range of solutions** and extensive product lines allows the company to meet the needs of the various distribution channels and consumers, but above all, to offer more and more innovative, reliable, safe and increasingly connected products in line with the new "Smart" solutions present in modern domestic and industrial environments.

The **internal** production and procurement **network** also allows Poly Pool to be a reliable partner for the supply of "private label" product lines for its customers, for which it oversees the selection and all stages of marketing.

E-MOBILITY

E-mobility

The range of electric vehicle charging products developed by Scame Parre (connectors, charging cables and Wall Box devices) is the next step in the evolution of sustainability in both private homes and public environments, offering targeted solutions for every type of user.

In-store solutions

PACKAGING

Modular packaging and minimum pack quantities sized to the actual needs of the different points of sale.

DISPLAY STANDS

Service providing **custom packaging and display stands** to meet every need at the point of sale.

SUSTAINABILITY

Ongoing commitment to developing **eco-sustainable packaging solutions** that are easy to dispose of and suitable for recycling.

Quality

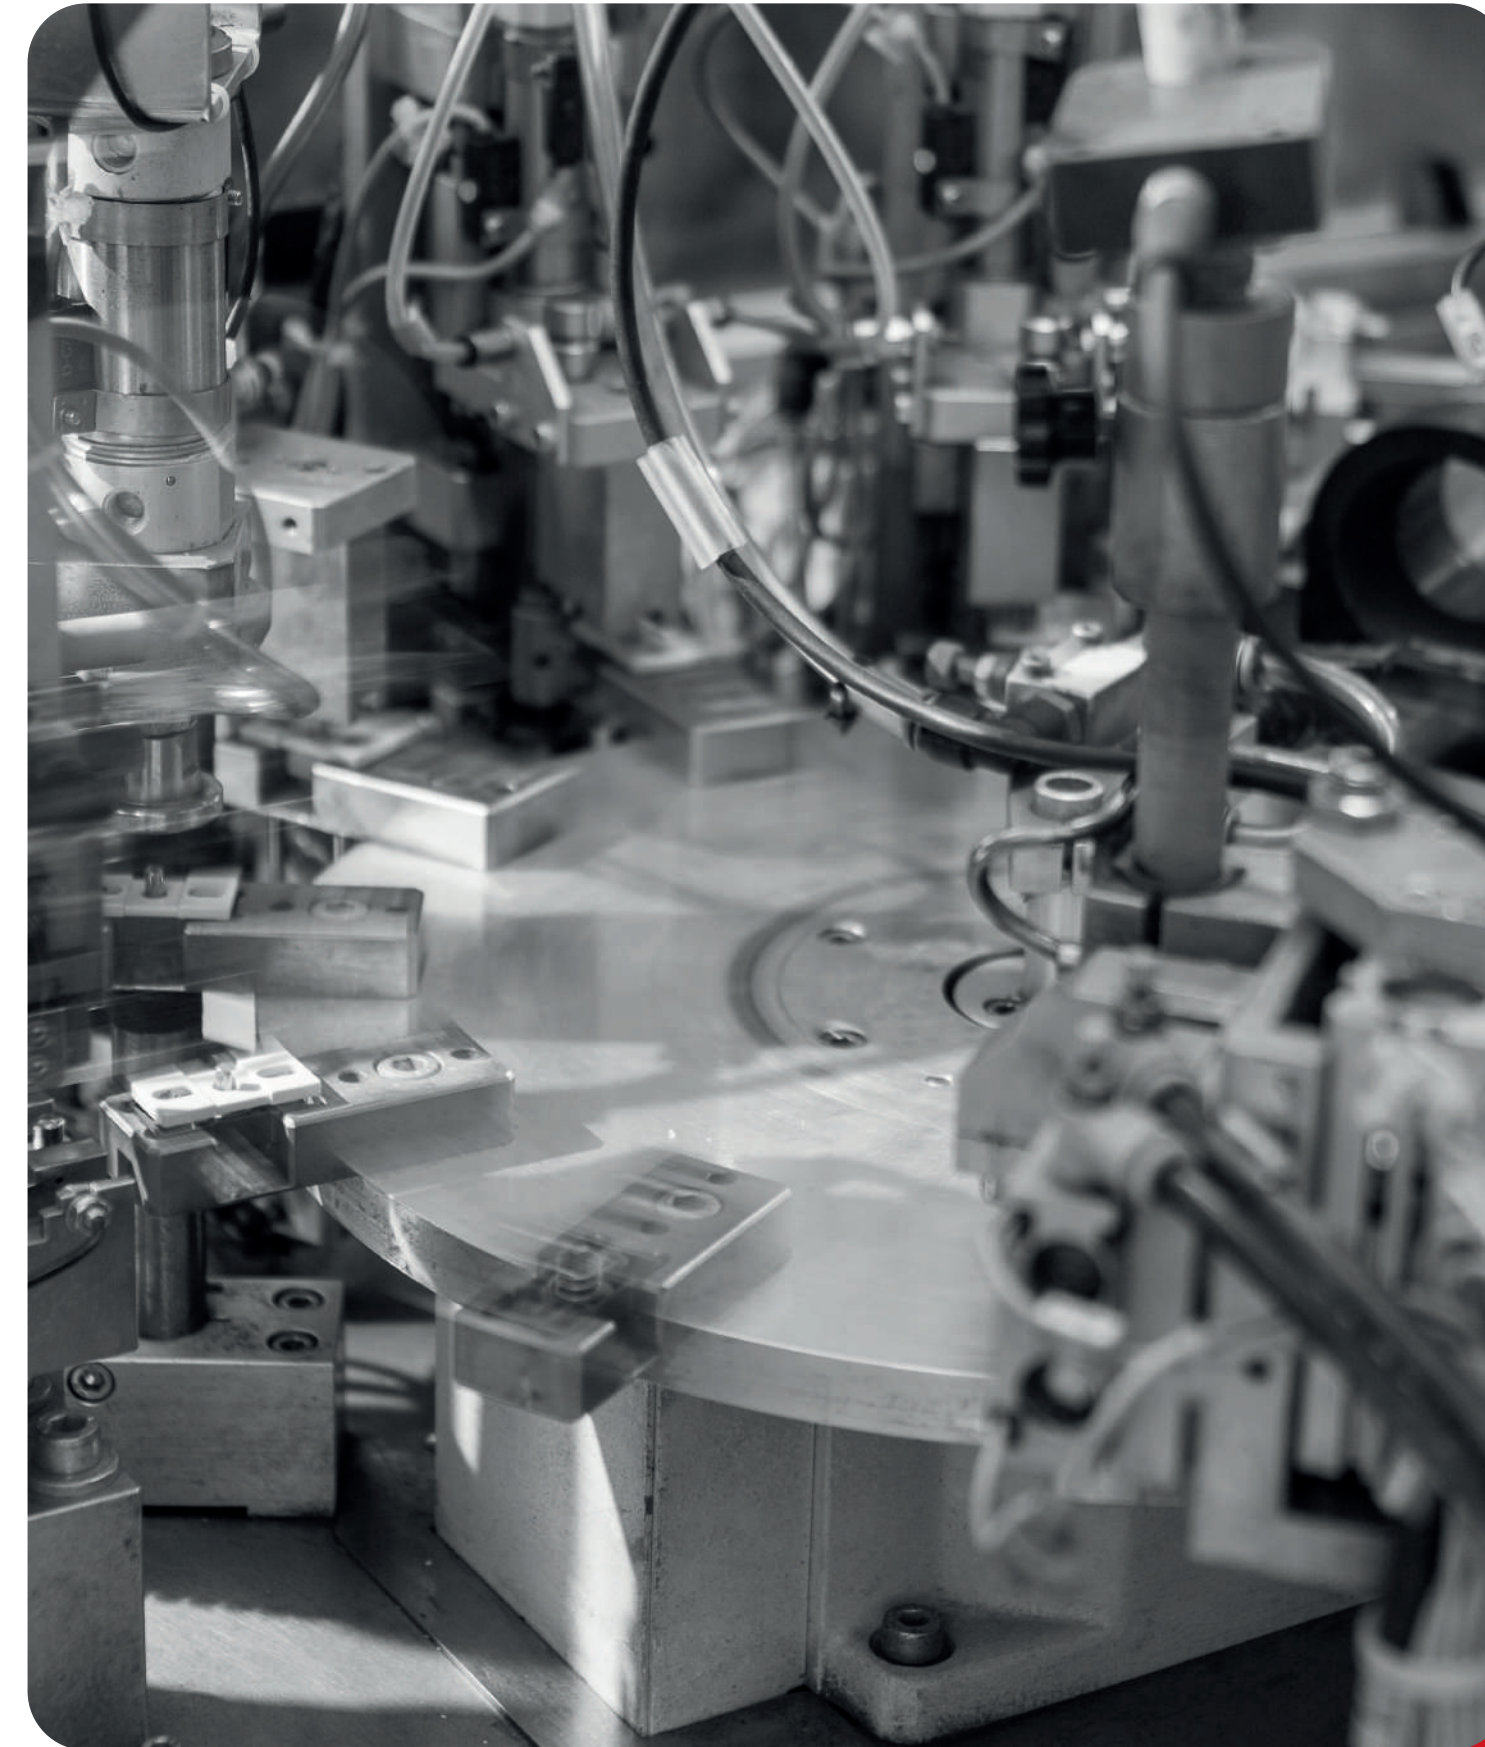

03

QUALITY AND SAFETY
CERTIFICATIONS

Quality

For Poly Pool, the parent company's production capability is reflected in its **Made in Italy product range**, manufactured in modern, highly automated production plants.

The products comply with **strict technical standards** to ensure safe and long-lasting use for consumers. The production in the Italian factories and the collaboration with the best international partners translates into quality that is ensured by the major Italian and international certification bodies (IMQ, VDE, UTE, KEMA-KEUR, SEMKO, NEMKO, etc.), to which the products are subjected in order to satisfy all the requirements of the regulations.

Certifications

The company is certified according to ISO 45001: 2018 (**Certificate No. 9192.PLYP**), which establishes the compliance of the management system for **health and safety in the workplace**, guaranteeing that all company workers can operate in an adequate and safe environment.

On the other hand, **respect for the environment** takes the form of continuous adaptation to all guidelines that go in the direction of sustainability, not only in products but also in packaging and across all business processes, to minimise waste and the intensive use of resources.

ISO 45001:2018

Services

04

LOGISTICS
COMMERCIAL AND TECHNICAL
SUPPORT

Logistics

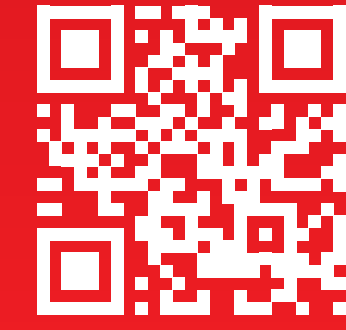

- 1** **Internal integrated logistics system** for the management and automated tracking of orders and deliveries.
- 2** **Large storage areas** that ensure continuity of supply to customers.
- 3** **Partnerships with the main reference companies for ground transport** that ensure a very high level of service, with the availability of goods at points of sale or at distribution platforms throughout Italy on a daily basis.
- 4** **Adoption of the GS1 international coding system (EAN codes) on all packaging levels**

Commercial and technical support

- 1** A consistent presence of the entire sales network across points of sale to support all **trade marketing** activities.
- 2** **Continuous commercial service** with customers to ensure a prompt response to all requests and supply needs.
- 3** **Widespread online technical support** throughout the country to support customers and end consumers, providing information and resolution of specific needs.
